INSTRUCTIONS FOR DOWNLOADING AND VIEWING FILES FROM A MOBILE DEVICE

1) **After purchasing, download your file and save it to your computer.**
   HINT: Save to somewhere that you can easily find and access (e.g. your desktop)
2) **Files will be delivered to you in a compressed .zip format. You will first need to unzip or "extract" the .zip file.**

   To extract (or unzip) files or folders from a compressed folder (source)

   1. Locate the compressed (zipped) folder that you want to extract files or folders from.

   2. Do one of the following:

   - **To extract a single file or folder, double-click the compressed folder to open it. Then, drag the file or folder from the compressed folder to a new location.**

   - **To extract the entire contents of the compressed folder, right-click the folder, click Extract All, and then follow the instructions.**

3) **Once the file(s) have been extracted, email the files to an account that you have linked to your mobile device (phone, tablet).**
   HINT: Depending on the size of the file you are working with and the speed of your internet provider, you may need to send one attachment at a time.
4) **Once you have received the email to your mobile device, download the PDF attachment(s) in your email. You will now be able to view the attachments through your email account.**
5) **You can then send and store your files to any available storage apps on your device (i.e. iBooks, Kindle, Google Drive, Dropbox, etc.)**
